LANCASHIRE COMBINED FIRE AUTHORITY

AUDIT COMMITTEE Meeting to be held on 30 November 2021

RISK MANAGEMENT (Appendix 1 refers)

Contact for further information: Keith Mattinson – Director of Corporate Services– telephone 01772 866804.

Table 1Executive Summary and Recommendations

Executive Summary

The report highlights action taken in respect of corporate risk since these were last reported to the Audit Committee.

Recommendation(s)

The Committee is asked to note the actions taken and endorse the revised corporate risk register.

Information

The latest review of the corporate risk register has identified one new risk which warrants consideration for inclusion on the corporate risk register: -

Increase in energy costs

The Service currently spends approx. £400k on energy. The contracts for both gas and electricity (let via a national framework agreement) fix the tariff at the start of each year, meaning that the increased costs on the market will not be passed onto the Service in the current financial year. However, when prices are fixed for next year, we will potentially see a significant increase in costs. We are currently reviewing the potential increase for inclusion in the budget setting exercise, however even a 25% uplift will result in an increase in excess of £100k.

In order to mitigate the risk of significant increase we use a YPO framework which fixes prices. YPO actively review the market attempting to fix prices at the most favourable rates. We also look to introduce more energy efficient lighting and heating as well as improving thermal qualities of buildings (e.g. replacing windows/ doors/ facades).

Given the potential cost increase this is a medium risk as whilst the increase seems certain the overall financial impact in terms of our total budget is relatively low.

Existing Risks

Of the existing risks 8 have been reviewed, and an updated corporate risk register is attached as appendix 1, with changes summarised below: -

Update since last meeting

Proposed Risk Score

1	Insufficient resources due to poor funding settlement, inability to make required savings, additional financial pressures such as RDS pensions etc., plus council tax limits via local referendum resulting in Authority being unable to set a balanced budget	No change, not due to report till 31/3/22	16	High
2	Premises Risk Information: That operational staff do not have available adequate and reliable premises information to efficiently resolve operational incidents: Risk information is provided to operational staff based on premises information and premises risk are identified on a continuous basis although this is not consistent throughout the Service.	A key priority through the pandemic was the continued review programme of SSRI plans for built environment risks. As a function central to the management of risk it was safeguarded during the pandemic, given that risk sites may have needed to review their own operating procedures and policies in light of C-19 impacts upon them. REP have completed assurance (dip samples) of Level 4 PORIS sites and a formal Service level project has now commenced to further strengthen our Risk Information policy, practices, guidance and training.	Remains at 9	Medium
3	Insufficient staffing resources, due to Industrial Action, to deal with operational demand and fulfil statutory responsibilities	No change, not due to report till 31/7/22	12	Medium
4	Lack of availability of water supplies for fire fighting prevents effective fire fighting resulting in additional damage to property and increased risk to life.	Previously discharged		
5	The increasing age profile of operational staff could adversely affect our ability to deliver effective emergency response.	Previously discharged		

6	Operational staff do not have the required skills to operate safely at an incident with the potential to result in F/F injuries or fatalities.	No change, not due to report till 31/7/22	9	Medium
7	Failure of key ICT systems resulting in disruption to services	No change, not due to report till 31/7/22	9	Medium
8	Loss of corporate reputation through negative publicity	No change, not due to report till 31/3/22	9	Medium
9	Retention and recruitment of RDS staff impacts on RDS appliance availability	No change, not due to report till 31/3/22	9	Medium
10	Lack of workforce planning resulting in significant over/under provision of staff and resulting impact on service and finances	Previously discharged		Medium
11	Lack of compliance with legislation resulting in prosecution or compliance order	Previously discharged		
12	Ineffective Health and Safety in the workplace, resulting in prosecution, intervention fees etc.	In April 2021 LFRS was audited for 9 for re-certification to the ISO 14001:2015 standard and year two surveillance for continuation for ISO 45001:2018.The British Assessment Bureau carried out the audit against the 2 standards. The Service received no major or minor non- conformances with 5 opportunities for improvement identified. These have been incorporated into an improvement plan	Remains at 9	Medium
13	Lack of effective Information management impacting on service delivery and support or leading to a breach of data protection/freedom of information or a loss of sensitive/personal information	No change, not due to report till 31/3/22	9	Medium

14	Delayed mobilisation,	The road speed software at	Remains	Medium
	impacting on service delivery	NWFC has been updated, taking account of average road	at 9	
		speed giving a more accurate		
		ETA for appliances. Pump		
		Delay times used by NWFC was matched against actual		
		performance over the past 12		
		months as opposed to		
		traditional calculations. These		
		changes came into effect in April and were reviewed in		
		October. REP reviewed the last		
		six months of data for pump		
		delay times which has seen		
		more improvements in times to mobilise.		
		Mobilising configurations are		
		being reviewed to ensure that		
		they remain fit for purpose. LFRS are currently looking at		
		dynamic cover software to		
		further enhance response		
		arrangements, this will enable appliances to be redeployed		
		based on risk and other incident		
		activity ensuring we have the		
		right fire cover in place at the		
15	High levels of staff	right time. Previously discharged		
10	absence due to outbreak			
	of ebola.			
16	Lack of clarity on future of FRS, leading to inertia	Previously discharged		
17	Failure of ESMCP to	No change, not due to report till	9	Medium
	deliver a viable communication facility.	31/7/22		
18	Inability to maintain service	Previously discharged		
	provision in spate

20	Loss of support for Voctor	No change, not due to report till	9	Medium
20	Loss of support for Vector Incident Command product	31/3/22	9	weatum
	with the product name	0110122		
	Command Support System			
	(CSS) leading to			
	ineffective command			
	function at large incidents			
21	Risk of rapid external fire	The organisational structure has	Remains	Medium
	spread in high rise premise	been refined to ensure there are	at 10	
	resulting in a major	sufficient resources to mitigate		
	incident	the risk.		
		This includes the introduction of		
		a Protection Transformation		
		Team, who have responsibility		
		to oversee the Building Risk		
		Review (BRR). Furthermore, revised governance for Fire		
		Protection has been introduced		
		to drive reform with the		
		introduction of dedicated Area		
		Manager and Group Managers		
		for Prevention and Protection.		
		As a result of the BRR and from		
		ongoing audits, Policy has been		
		introduced to manage buildings		
		that have been identified as		
		requiring 'interim measures',		
		This includes details of what		
		NWFC, Response Emergency		
		Planning, Protection and Service Delivery will do,		
		including quarterly visits from		
		Operational staff to premises in		
		interim measures		
		Operational Assurance Group		
		are progressing the Grenfell		
		Tower Inquiry action plan.		
		Current activity includes		
		ongoing training of Operational		
		staff for responding to high rise		
		incidents. An evacuation policy		
		and the associated training is		
22	Failure to maximise	now being planned.	Remains	Medium
22	collaborative opportunities	Two Blue Light Collaboration meetings have been held in Q2.	at 9	INIGUIUIII
	presented by Policing and	The next steps are to present	ລເ ອ	
	Crime Act 2017	the journey so far, and		
		proposals for the ongoing work		
		plan, to the Collaboration		
		Executive team. (This is		
		particularly relevant given recent		

- 22		changes at executive level and programme board level within LanCon.). Shared values will be discussed with a refresh of the MOU. Subsequently. key information will then be cascaded through management teams.		Madium
23	Lack of leadership capacity impacting on delivery of services	No change, not due to report till 31/7/22	9	Medium
24	Insufficient preparation for inspection programme leading to opportunities being lost in terms of national learning and Lancashire's ability to effectively communicate its progress and awareness	Previously discharged		
25	The outcome of the EU court ruling on the Matzak case relating to on-call arrangements in Belgium has a detrimental impact on service provision and/or cost.	Previously discharged		
26	Increase in costs of and/or lack of availability of goods and services, following Brexit	No change, not due to report till 31/7/22	12	Medium
27	Increase in costs and administration associated with changes to pensions	 Following Court decisions re FF pension schemes there are two issues which have implications for the Service in terms of costs and administrative capacity:- Various allowances were deemed pensionable, this being agreed with the FBU. However, as the Service has been unable to reach agreement with the FBU on backdating it has implemented a policy of 6 years backdating for relevant allowance. The McCloud/Sergeant judgement deemed that the protection arrangements for staff transferring from the 92 scheme to the 2015 scheme was age discriminatory and therefore illegal, hence a 	16	High

		1		
		national agreement has been reached to remedy this, giving personnel the option of having their benefits calculated based on the scheme they were transferred into (2015 scheme) or the scheme that they transferred from (92 or 2006 scheme) Both of these changes have significant implications in terms of capacity, and cost, to calculate correct benefits due, as well as backdating of pension contributions. They also significantly increase the forecast cost of pension payments due at retirement, and the costs of pensions paid to those who have already retired.		
28	Discontinued or long-term malfunction in the KPI management software product (CORVU)	A key member of staff continues to carry out basic maintenance to ensure KPI management software (CORVU) continues to deliver statistical data in support of performance reporting. Work is progressing within Digital Transformation, alongside a Microsoft Gold delivery partner, to develop/introduce a new technology/software that will replace the existing KPI management software. A recruitment process is underway to employ a second data analyst that can provide resilience within the department.	Remains at 6	Low
29	High levels of staff absence due to pandemic.	Higher levels of absence have materialised as expected. The position continues to be closely monitored to establish any impact. The Service has implemented a model of Hybrid Working, so staff can continue to work flexibly from home. The Service has promoted the availability and reimbursement of the flu vaccine to minimise	Remains at 15	High

		the additional risks associated with seasonal flu. The availability of Lateral Flow Tests is promoted, and staff continue to regularly test themselves to minimise the risk of transmission of Covid-19.		
30	Changes to Emergency Response Driver Training leading to a reduction in trained appliance drivers and hence impacting pump availability	No change, not due to report till 31/3/22	12	Medium
31	Increase in costs associated with major Property projects due to changes in Building Regulations	No change, not due to report till 31/7/22	12	Medium

Financial Implications

None

Human Resource Implications

None

Equality and Diversity Implications

None

Environmental Impact

None

Business Risk Implications

The improvement in risk management arrangements should result in reduced business risk
