Executive summary and recommendations

Executive Summary

Attached in full at Appendix 1 is the Annual Safety, Health and Environment Report for Lancashire Fire & Rescue Service (LFRS) covering the period 1st April 2022 to 31st March 2023.

As the body with ultimate responsibility for staff safety, health and environmental compliance it is important that all CFA Members are aware of performance of the Service in this respect. The report therefore provides a summary of overall progress and performance in respect of accidents and near misses, carbon emissions and environmental performance, health and wellbeing initiatives, together with a look forward to planned improvement areas for 2023/24.

Recommendation(s)

The Authority is asked to note the report and associated safety, health and environment performance outcomes.

This report includes performance information for health and safety and the environment.

Business Risk

From a legal, economic and moral standpoint, several health and safety and environmental compliance obligations are imposed on the Authority, whilst the Health and Safety Executive and Environment Agency will readily take enforcement action where significant or recurring failures are identified.

Environmental Impact

LFRS continues to manage the environmental risks and issues with impact directly on the Service through the externally accredited ISO14001 Environmental Management System which details our environmental aspects and impacts together with the measures taken to control and mitigate risks. The changing climate continues to impact on the Service response activities, particularly in relation to increasing attendance at flooding and wildfire incidents. Carbon management within the LFRS estate and vehicle fleet is a growing issue, with the impact on utility and energy use which the Service is seeking to mitigate through the Carbon Management Plan.

Equality and Diversity implications

None

Financial Implications

None directly.

HR Implications

The Authority is committed to providing a safe and healthy workforce which is particularly important in the context of emergency service operations, and which requires ongoing and effective health and safety management arrangements.

Local Government (Access to Information) Act 1985
