Comparative Fire Rescue Service Data for Performance Committee

Requested by Jon Charters, Assistant Chief Fire Officer. Produced 14th November 2024

DATA PERIOD: Rolling 12-month period, to year ending June 2024.

Introduction

On a quarterly basis the Home Office publish a rolling 12-month update on national Fire Service activity, with the latest release being termed as year ending June 2024, meaning the 12-month period to the end of quarter one. For ease of reading, the periods are referred to by the year. E.g. The latest period will be named 2024.

This report compares a selection of key Lancashire Fire and Rescue Service (LFRS) activity against other Fire and Rescue Services in the country, along with the current LFRS position and trend.

Selected metrics:

- 1. Total incidents
- 2. Dwelling fires
- 3. Dwelling fire casualties
- 4. Non-domestic building fires
- 5. Assist other agencies
- 6. RTC's attended

Source: Fire statistics data tables - GOV.UK

Context needs to be maintained when comparing Fire and Rescue Services due to their diverse makeup. A table is included which indicates if the Service is classed as Predominately Urban, Significantly Rural or Predominantly Rural: Lancashire is classified as Predominately Urban.

Summary

Lancashire FRS has one of the higher incident levels of the total 44 Fire Services in England, currently ranking 8th as at the 12-month period to June 2024 [page 2]. LFRS also has greater activity than a number of the metropolitan Services and is also the highest activity of a predominantly Urban, non-metropolitan Service [page 4].

With decreasing numbers of fire incidents, and increasing non-fire incidents, the proportion of incidents recorded as non-fire incidents has surpassed the count of fire incidents for the first time. Fire false alarms continue to account for the largest proportion [page 3].

Whilst overall activity has been increasing over the last ten years, the latest 12 month period has shown a reduction within LFRS and across the majority of other FRS's [page 5].

There has been notable decreasing in dwelling fires attended [page 6], and a smaller, if fluctuating, decrease in the resultant domestic fire casualties [page 7]. It is a similar view with fires in non-domestic properties which have been in a slight overall decline [page 8].

These are offset by large increases in assist other agency incidents. A similar trend is seen nationally, with LFRS recording the largest number outside of Greater London [page 9].

Road traffic collisions have been steadily trending upwards [page 10].

1. Total incidents:

Lancashire Fire and Rescue Service (LFRS) attended 16,903 incidents during year ending June 2024, against an England FRS average of 11,016.

NOTE: Greater London (131,664), and Isles of Scilly (47), are both excluded from the chart/average due to recording very high/low counts. A full list of FRSs and their activity is shown on page 4.

Over the past decade, the number of incidents attended by LFRS has been on a gradual upward trend, with activity increasing 40.7% since the 13,906 incidents in 2014 to the 19,563 recorded in 2023. However, in the latest year ending June 2024 there has been 16,903 attended incidents, a decrease of 13.6% over the previous year.

This follows a similar national trend, although the decrease within Lancashire was larger than the average 4.6% seen nationally.

Appendix 1

The share of incidents between incident types has changed over the past decade, with an increasing share of incidents being non-fire incidents over recent years. Fire incidents have steadily been decreasing and there has been a reduction in false alarms during more recent years.

For the year ending June 2024 the share of fire incidents was 24.4%, the lowest since comparable data became available, with non-fire incidents accounting for 30.9% and fire false alarms, 44.7%.

In 2014, the split was: Fire 38.0%, non-fire 17.9% and false alarms 44.1%.

Fire and Rescue Service counts by each selected incident type. Lancashire is the classified as predominantly urban and has the highest total incident count within a non-metropolitan Service, predominantly urban Service (year ending June 2024). *Greater London and Isles of Scilly included for reference.

2. Domestic fires:

LFRS attended 757 dwelling fire incidents during year ending June 2024, against an England FRS average of 490. NOTE: Greater London (4,668), and Isles of Scilly (0), are both excluded from the chart/average.

To the year ending June 2024 dwelling fires attended by LFRS have reduced from 1,061 in 2014 to 757 in the latest period, a reduction of 28.7%.

This is a greater reduction than that seen across all other Fire and Rescue Services (average), which saw an 18.8% decrease over the same period.

3. Dwelling fire casualties:

There were 55 casualties requiring hospital treatment from dwelling fire incidents during the year ending June 2024, against an England FRS average of 36. NOTE: Greater London (485), and Isles of Scilly (0), are both excluded from the chart/average.

To the year ending June 2024 there have been 55 casualties requiring hospital treatment from dwelling fire incidents by LFRS. These have reduced by 21.4% from the 70 recorded in 2014.

This is a slightly smaller reduction than that seen across all other Fire and Rescue Services (average), which saw a 25.5% decrease over the same period.

4. Non-Domestic building fires:

LFRS attended 358 non-domestic building fire incidents during the year ending June 2024, against an England FRS average of 209. NOTE: Greater London (1,504), and Isles of Scilly (0), are both excluded from the chart/average.

Fires in non-domestic properties attended by LFRS decreased by 11.8% from the 406 recorded in 2014.

This is a smaller reduction than that seen across all other Fire and Rescue Services, which saw a 15.% decrease over the same period.

5. Assist other agencies:

LFRS attended 1,724 assist other agency* incidents during the year ending June 2024, against an England FRS average of 578. NOTE: Greater London (4,626), and Isles of Scilly (2), are both excluded from the chart/average.

*Approximately 50% of assist other agency incidents are to gain entry to a domestic property on behalf of the Ambulance or Police.

To the year ending June 2024 assist other agency incidents attended by LFRS have seen large increases, with 1,724 recorded in the latest period, from a low of 115 in 2014, an increase of 1,399.1%.

This is a significantly larger increase than that seen across all other Fire and Rescue Services, which still saw a significant 529.9% increase over the same period.

6. Road Traffic Collisions (RTC's) attended:

LFRS attended 662 road traffic collision incidents during the year ending June 2024, against an England FRS average of 658. NOTE: Greater London (4,626), and Isles of Scilly (2), are both excluded from the charts (and average) due to recording very high/low counts.

To the year ending June 2024 Road Traffic Collisions incidents attended by LFRS have seen relatively small increases, with 662 recorded in the latest period, from 512 in 2014, an increase of 29.3%.

This is a larger increase than that seen across all other Fire and Rescue Services (average), which saw a 9.8% increase over the same period.
